### SECURINESS participate in (OSAC)

SECURINESS will be available as both sponsor, exhibitor and on the podium at the Overseas Security Advisory Council - Nordic & Baltic Regional Conference and Expo in late September 2010 at the Marriott in Copenhagen

In connection with this important regional conference in Copenhagen SECURINESS will participate as a sponsor, exhibitor and also as speaker on the podium at the conference. Solutions, products and the latest information within security will be showcased for the public and private sector participants from all Nordic and Baltic countries.

During the conference SECURINESS will among other things, focus on solutions and products for access control, intelligent video surveillance, terrormeter™, telephony solutions and the latest solutions for stopping vehicles - and here the audience could actually see and experience our mobile solution in action.

*SECURINESS is a leading intellectual security consultancy, operating throughout many countries and with focused and skilled security experts.*

*We provide government, organizations, public and private companies with strategic and technical advice from the original needs and requirements to the finished solution, product or service, including handling of foreign branches and offices around the world.*

*Our mission is to turn unique ideas and concepts into intellectual security solutions and services of such quality that it is able to be best practice for our clients.*
